SECTION II - PHYSICAL/CHEMICAL CHARACTERISTICS

Appearance: Plastic tube or packet containing a viscous, translucent, odorless jelly free from foreign matter.

Specific Gravity: 1.01.

Solubility: Complete in water.

pH: 5.6 - 6.7

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

Condition: No fire or explosion hazard. Packaging material will burn in a fire.

Extinguishing Media: Use standard fire fighting procedures depending on the source of the surrounding fire.

SECTION IV - REACTIVITY DATA

Incompatibilities: None applicable.

Hazardous Polymerization: Will not occur.

Hazardous Decomposition or Byproducts: This product is stable. If involved in fire, the packaging materials may produce poisonous gas.

SECTION V - TOXICOLOGY/HEALTH EFFECTS

Occupational exposure is not expected to produce adverse human health effects following normal workplace practices. Product has very low acute toxicity. No known chronic health effects. Direct eye contact may cause temporary discomfort with mild redness.

SECTION VI - FIRST AID

Route of Entry: Accidental ingestion is possible.

Emergency and First Aid Procedures:

--> For eye contact, product may be difficult to remove using only water. In case of contact, flush eyes with plenty of 1% physiological saline solution. If no saline is available, flush with copious amounts of water.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING

General: No special precautions.

Steps to Be Taken in Case Material is Spilled: Pick up in the most efficient manner. Product can be very slippery.

Waste Disposal Method: Place material into waste receptacles and dispose of in accordance with environmental regulations.

SECTION VIII - CONTROL MEASURES

Personal Protective Equipment: Not normally required.

Ventilation: General ventilation is adequate for packaged product.
