

Latex-Quality Performance in a Latex-Free Glove **The Worry-Free Choice...Designed For Use By Everyone, Everywhere**

Latex allergy is a growing concern within the healthcare industry. With **STERLING* Nitrile**, Kimberly-Clark has created latex-free glove with the protection, comfort, and sensitivity¹ of latex, at a comparable value. It's the one glove you need for use, facility-wide.²

■ **The Protection of Nitrile**

A new manufacturing process boosts the tensile strength of nitrile—the force required to break through the glove—to increase its already superior barrier protection qualities.

■ **The Sensitivity of Latex**

The process also allows a reduction in glove thickness, which means that less force is required to stretch the material. That provides a latex-free glove with the dexterity and sensitivity of natural rubber latex.

■ **Save Space and Waste**

STERLING* Nitrile exam gloves come in space saving 150 count and high-capacity 500 count dispenser boxes. That can save you up to 1/3 of the storage space you'd usually devote to gloves. The reduced number of packages used also means less waste for your facility.

The KIMBERLY-CLARK* STERLING* Nitrile Exam Gloves are just one of the clinical solutions that you can depend on to meet the demands of your fast-paced world.

Whether your needs involve preventing healthcare-associated infections, surgical and digestive solutions or pain management, with Kimberly-Clark you'll always have one less worry.

Product Specifications

STERLING* Nitrile	gauge thickness (measuring single thickness)		average length
	MM	MIL	
Middle Finger	0.09	3.5	242mm or 9.5"
Palm	0.08	3.1	
Cuff	0.07	2.8	

Physical Properties (Target)

Before Aging		After Aging	
Tensile Strength	Ultimate Elongation	Tensile Strength	Ultimate Elongation
42 MPa	650%	38 MPa	550%

Note: All specifications are subject to change without notice.

Quality Standards:

- Exceeds current ASTM Standards for critical defects, tensile strength, and puncture resistance
- Biocompatible as measured by Primary Skin Irritation, Repeat Challenge Sensitization and Hemolysis
- Manufactured in accordance with Quality System ISO 9001:2000

Commitment to Excellence

If, for any reason, our products do not meet your expectations, please let us know your comments or suggestions for improvement. Your input will result in a concerted effort on our part to meet your requirements. Our goal is to provide quality products that completely meet your needs time after time.

KIMBERLY-CLARK* STERLING* Nitrile Exam Gloves

- Product Features:**
- Powder-free
 - Non-sterile
 - Ambidextrous
 - Textured fingertips
 - Beaded cuffs
 - Higher count, saves space

55085	STERLING* Nitrile Exam Glove, X-Small	Eaches/Box = 150 Boxes/Case = 10
55086	STERLING* Nitrile Exam Glove, Small	Eaches/Box = 150 Boxes/Case = 10
55087	STERLING* Nitrile Exam Glove, Medium	Eaches/Box = 150 Case = 10
55088	STERLING* Nitrile Exam Glove, Large	Eaches/Box = 150 Case = 10
55089	STERLING* Nitrile Exam Glove, X-Large	Eaches/Box = 140 Case = 10

STERLING* Nitrile Exam Glove Countertop Dispensers

- Dispenser Features:**
- 2-sided, pull-by-cuff dispensing
 - 250 gloves per side
 - Plastic handle for easy portability
 - Provides clinical benefit of cuff dispensing for high usage tabletop areas

ALSO AVAILABLE:

51401	STERLING* Nitrile Glove Dispenser, Small	Eaches/Dispenser = 500 Dispenser/Case = 3
51402	STERLING* Nitrile Glove Dispenser, Medium	Eaches/Dispenser = 500 Dispenser/Case = 3
51403	STERLING* Nitrile Glove Dispenser, Large	Eaches/Dispenser = 500 Dispenser/Case = 3
