The information below is believed to be accurate and represents the best information currently available. However, we make no warranty express or implied, with respect to such information, and we assume no liability resulting from its use.

MATERIAL IDENTIFICATION

MATERIAL NAME: Stomahesive® Protective Powder (supplied in one oz. bottles)

NATIONAL DRUG CODE/S: NDC 0003-0255-10 C - 025510 item 106668

COMPONENTS

Sodium carboxymethyl cellulose

Pectin

Gelatin

PHYSICAL DATA

An off white powder used to fill spaces between the stoma and a skin barrier.

CONVTC

212

HC# 02

Stomahesive® Protective Powder

FIRE AND EXPLOSION DATA

EXTINGUISHING MEDIA: Use water fog, dry chemical, or carbon dioxide

When this material is involved in a fire, a self-contained breathing apparatus should be worn along with full protective clothing.

This material, like most materials in powdered form, is capable of creating a dust explosion in bulk quantities.

REACTIVITY DATA

Stomahesive powder is stable. It will not polymerize. Thermal decomposition or burning may produce CO, CO₂, NO_x, HCN, or other toxic gases.

HEALTH HAZARD INFORMATION

No adverse reactions are known to exist from the use of this product.

First Aid: Eye -- Flush with copious amounts of water
Skin -- Wash with soap and water
Inhalation -- Remove to fresh air; if difficulty in breathing, administer oxygen

DISPOSAL PROCEDURES

Dispose of in accordance with all federal, state, and local regulations.

SPECIAL PROTECTION INFORMATION

A NIOSH approved dust/mist respirator should be worn when handling bulk powder. Eye protection and gloves should also be worn when handling bulk powder.

SPECIAL PRECAUTIONS AND COMMENTS

Do not inhale powder.
Store at room Temperature for product stability maintenance.
Use for intended use only.
