

## 10 Quart / 1.5 HP Backpack Vacuum

### Design and Engineering Features:

- Reliable power from a 1.5 HP, 2-stage motor.
- 61 dB quiet motor for operator comfort.
- Fastest soil pickup with 120 CFM high airflow.
- 10-quart tank capacity. Collect soils with a disposable paper Micro-Bag mounted *inside* the washable-cloth shakeout bag. The heavy-duty paper bag collects more soils and leaves exhaust air cleaner.
- The CH85005 adds a special motor filter design and HEPA filter bag to provide the cleanest exhaust air.
- 11-pound, lightweight ergonomic design, with a canister shape and cushioning back-pad that fits the curve of the operator's back. The comfortable carrying strap design reduces fatigue, making work easier.
- Easy-to-reach On/Off power switch.
- 50-foot long safety power cord.
- 2 lever-style latches lock the cap to the canister.
- A static-dissipating vacuum hose screws into the backpack vacuum for right handed or left handed vacuuming.
- Lifetime warranty on roto-molded polyethylene tank. 5 years on electrical components and tools.

*Lightweight,  
Comfortable,  
Quiet and  
Powerful  
Backpack  
Vacuuming*

Interchangeable Lid -  
Converts the Backpack  
into a powerful blower.

Includes 6-piece tool kit.
