After swallowing

Do not induce vomiting. Get medical attention.

Personal protective equipment for first-aid responders: No data available.

Most important symptoms/effects, acute and delayed: No data available.

Indication of immediate medical attention and special treatment needed: No data available.

Section 5 - Fire Fighting Measures

Suitable extinguishing media:

Dry chemical, CO₂, water spray or alcohol-resistant foam.

Unsuitable extinguishing media: No data available.

Specific Hazards arising from the chemical: Fire may produce irritating and/or toxic gases.

Specific protective actions for fire-fighters:

Move containers from fire area if this can be done without risk. Use Water spray, fog or regular foam for large fire. If fire involving Tanks or Car/Trailer Loads, cool containers with flooding quantities of water until well after fire is out. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn. Withdraw immediately in case of rising sound from venting safety devices or discoloration of tank. ALWAYS stay away from tanks engulfed in fire. Prevent run off from fire control dilution from entering streams or drinking water supply.

Section 6 - Accidental Release Measures

Personal precautions:

No action shall be taken involving any personal risk or without suitable training. Use proper personal protective equipment as indicated in Section 8. Keep appropriate ventilation.

Protective equipment:

As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Emergency procedures:

CALL EMERGENCY RESPONSE Telephone Number on Shipping Paper first. If Shipping Paper not available or on answer, refer to appropriate telephone number listed on the inside back cover. As an immediate precautionary measure, isolate spill or leak area for at least 25m in all directions. Keep unauthorized personnel away. Stay upwind and keep out of low areas. Review Section 5 and Section 7 sections before proceeding with clean-up.

Methods and materials for containment and cleaning up:

For all waste handling must refer to United Nations, National and Local Regulations for disposal.

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

Section 7 - Handling and Storage

Precautions for safe handling:

Ensure good local exhaust ventilation. Handle and open container with care. Keep away from incompatible substances (see section 10), any sources of ignition or heat (e.g. open flames, hot surfaces), foodstuffs, beverages and foods. Avoid contact with eyes and skin. The work area should be equipped with the corresponding species and quantity of fire-fighting equipments and emergency equipments.

Conditions for safe storage, including any incompatibilities:

Fireproof. Separated from strong oxidants. Moisture absorption. Keep container tightly sealed.
