### Section 4. First-Aid Measures

#### Inhalation:

Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing.

#### Skin:

In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Wash skin with soap and water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice/attention.

Eye:	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
Ingestion:	DO NOT induce vomiting. If person is drowsy or unconscious and vomiting, place on the left side with head down. Seek medical attention.
Most important symptoms and effects, both acute and delayed:	Refer to section 11 - Toxicological Information.
Indication of any immediate medical attention and special treatment needed:	Notes to Physician: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

## Section 5. Fire Fighting Measures

Suitable Extinguishing Media	Carbon dioxide, dry chemical and water spray
Unsuitable Extinguishing Media	Avoid the use of streaming water
Special Hazards Arising From Mixture:	<p>Unusual fire and explosion hazard:</p> <p>Flammable: Will ignite by sparks, heat or flames.</p> <p>Vapors may form explosive mixture with air.</p> <p>Vapors may travel to source of ignition.</p> <p>Advice to Firefighters:</p> <p>Firefighters should wear self-contained breathing apparatus. Wear protective clothing that is specifically recommended by manufacturer for firefighters.</p> <p>Use water spray to cool containers exposed to fire.</p>

## Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures:	<p>Personal Precautions:</p> <p>Wear appropriate protective equipment including respiratory protection as conditions warrant.</p> <p>Do not touch or walk through spilled material</p> <p>Do not touch damaged containers or spilled material</p> <p>Emergency Procedures:</p> <p>As immediate precautionary measures, isolate spill or leak area (150 feet radius)</p> <p>Eliminate all ignition sources in spill or leak area</p> <p>Keep unauthorized personnel away</p> <p>Stay upwind and ventilate closed spaces before entering</p> <p>Avoid run off to waterways and sewers</p>
Methods and Material for Containment and Cleaning up	<p>Containment/Clean-up Measures:</p> <p>Stop leak if it can be done without risk. All equipment used when handling the product must be grounded. Absorb or cover with dry earth, sand or other non-combustible material and transfer to suitable containers. Use clean non-sparking tools to collect absorbed material. For large spills consider a dike far ahead of liquid spill</p>
