

## Premium Surgical Tape

McKesson Premium Surgical Tapes each have unique backing and adhesive characteristics ideal for a variety of specific taping techniques and situations. They are designed to be easy to use with straight, bi-directional tearing to allow users to tailor tape for various dressings and devices, and are ideal for securing dressings, tubing, catheters and other devices. They feature an acrylic adhesive, and are porous, conformable, and breathable. They are also designed to produce minimal adhesive residue upon removal from skin. Our offering includes three types of tape—cloth, paper and transparent—in a variety of sizes to meet your needs. All Premium Surgical Tapes are not made with natural rubber latex.

### Features and Benefits

- Gentle to skin
- Holds well on damp skin

### Suggested Applications

- Taping fragile, at-risk skin
- For areas requiring repeated taping
- Securing small to medium dressings, especially on damp skin
- Securing lightweight tubing

### Features and Benefits
