

Patient Lifts

McKesson patient lifts maximize patient security and minimize the effort required for caregivers to safely lift and transfer patients to and from a bed, wheelchair, commode, bath and more. Invest in a McKesson lift to improve user and caregiver safety and for convenience in long-term care use. Choose a manual hydraulic or battery-powered model.

Features and Benefits

Manual Hydraulic Patient Lift

- Operation optimizes lift capabilities to require less physical effort for raising patient
- High-performance hydraulics for safe and gradual movement
- Sturdy, silver vein steel construction and 6-point cradle design provides maximum strength to raise and lower individuals weighing up to 450 lbs
- Adjustable width base allows for a proper fit
- Pump handle can rotate from side-to-side for convenience of attendant
- Offset mast and boom style provides better lift path to maximize full travel range
- Masts are interchangeable with bases, lock together and can be separated for travel and storage
- Standard, 5-inch casters are offset for greater stability and smooth operation
- Easy-to-operate caster breaks provide additional safety and security, 6-point swivel bar can accommodate 2 or 4 sling straps plus 2 chain connections
- Includes 2 sling chains (sling sold separately)
- Not made with natural rubber latex
- HCPCS: E0630

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.
