

McKESSON

PREVENT®

Safety Scalpels

McKesson Prevent® Disposable Safety Scalpels feature slide-retraction technology to help prevent accidental cuts and injury. The pre-assembled scalpel blade is activated by pushing the slider forward to expose the blade, temporarily locking it in position to prevent accidental retractions. A visual line and audible click indicate the blade's position—retracted, extended and permanent lock. The final lock mechanism permanently locks the blade securely in sheath after use. Prevent® Disposable Safety Scalpels are compliant with OSHA's directive for the Needlestick Safety & Prevention Act.

McKesson Prevent® MX Safety Scalpels offer an intuitive sensory grip handle while the Prevent® B Safety Scalpel offers the classic grip handle. Both styles feature stainless steel blades; all are sterile and disposable.

FEATURES AND BENEFITS

- Blade remains covered during both assembly and disposal to reduce exposure to blade
- Slide-retraction technology aids in the prevention of accidental cuts and injuries
- Easy activation—push slider forward to expose blade, temporarily locking it in position to help prevent accidental retraction
- Final lock mechanism permanently locks the blade securely in sheath after use
- Prevent® MX features an intuitive sensory grip handle
- Prevent® B features a classic grip handle
- Both styles feature stainless steel blades
- Not made with natural rubber latex
