The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources. All product claims and specifications are those of the product suppliers and have not been independently verified by McKesson Medical-Surgical or its affiliates ("McKesson"). McKesson is not responsible for errors or omissions in the product information.

The properties of a product may change or be inaccurate following the posting or printing of the product information in the document, either in the print or online version. Caution should be exercised when using or purchasing any products from McKesson's online or print documents by closely examining the product packaging and the labeling prior to use.

Due to product changes, information listed in this document is subject to change without notice. This information is placed solely for your convenience in ordering and McKesson disclaims all responsibility for its completeness and accuracy, whether or not the inaccuracy or incompleteness is due to fault or error by McKesson.

Features and Benefits

Bath Tissue

- Smaller bath tissue core allows for 100% more product on each roll (vs. standard tissue rolls) reducing roll changes and labor costs
- Polywrap case for easy storage and a reduction in packaging waste by 72%
- Designed for convenience with four 9 roll packs per case that allow for easier storage and a better fit on janitorial carts
- Small, rigid core allows full roll usage reducing product waste
- Virgin-grown, Rapidly Renewable Fiber (RRF) tissue creates a whiter, brighter, and softer sheet and meets requirements of USGBC LEED® standards

Product Quality Features

- 100% virgin fiber based – no recycled content
- Delivers at-home like comfort with product appearance and softness
- Less toweling usage with higher quality fiber content
- Enhances the washroom image and experience with cleaner, better performing products

Rapid Renewable Fiber (RRF)

- Fiber sourced from trees with a significantly shorter growth cycle allowing them to be harvested in 6 to 8 years
- Responsibly harvested under ideal growing conditions
- Recognized by the U.S. EPA and Green Building Council (USGBC) as environmentally preferred raw materials
- LEED compliant
