

Raised Toilet Seat

According to the Centers for Disease Control and Prevention, over 14 percent of bathroom-related injuries in older adults occur “when standing up from, sitting down on, or using the toilet.” The added height of the seat and the durable arm rails allow users to safely sit and stand back up from the toilet. McKesson's raised toilet seat enables users to avoid falls and achieve greater independence and confidence. The locking device is engineered to fit securely on almost any toilet.

Features and Benefits

- Designed for individuals who have difficulty sitting down or getting up from the toilet
- Fits most toilets
- Easily attaches to toilet bowl, tool-free with front-clamp, worm-screw locking mechanism engineered to prevent toilet seat from shifting
- Heavy-duty, molded-plastic construction allows the product to remain lightweight without sacrificing strength and durability
- Foam-padded, metal arms sit 5-3/4 inches above the seat to provide security, comfort, and ease of mobility
- Tool-free arms can each be removed or added to accommodate user preferences, space available, and travel convenience
- Arm sleeves and receivers are made of metal
- 18-inch width between armrests comfortably supports users weighing up to 300 pounds
- Packaged for retail sale
- May be eligible for Flexible Spending Account (FSA) Reimbursement
- Not made with natural rubber latex
