

## Applicators & Hardwoods

McKesson applicators and hardwoods are a multi-use line of products that aid practitioners in solution preparation and application for different medical procedures. Soft, cotton-tipped applicators have a bulbous shape suitable for use during diagnostic specimen collections. Tongue depressors help to spread ointments and mix medications. OB/GYN and proctoscopic applicators feature extra-absorbent rayon tips with hollow polypropylene handles ideal for gynecological preparation and procedures. Wooden applicators and spoons help to dispense wet medication mixtures.

### Features and Benefits

- Applicators and hardwoods designed for medical uses and patient comfort
- 100% cotton-tipped applicators available in a variety of lengths and shafts with convenient rulers
- Tongue depressors, wooden applicators and spoons made of high quality wood
- Firm grip for general cleaning, prepping and mixing
- Available in sterile and non-sterile
- Not made with natural rubber latex

**Satisfaction Guaranteed**  
If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.
