

Rollators

McKesson rollators are ideal when arm strength is limited. Rollators, unlike standard walkers, do not require users to lift the unit with each step and they also include brakes to maintain control. With convenient storage and seating, our rollators allow users to transport personal items without requiring the use of hands and provide the ability for users to sit or rest. Choose McKesson's rollators as a mobility solution for the enhanced maneuverability across various terrain that will keep users moving smoothly and safely.

Features and Benefits

Lightweight Rollators

- Aluminum frame construction safely supports users up to 300 lbs
- 13-pound, lightweight design with folding capabilities for easy storage and portability
- Ergonomically-designed handles are easy-to-grip, reduce hand pressure and are adjustable to accommodate users' height and preferences
- Oversized padded seat and backrest are made of strong polyurethane material for durability, have a contoured design for ergonomic comfort, and provide cut and split resistance to prevent rubbing and irritation
- Hinged padded backrest can be folded up, down or removed
- Deluxe loop-lock system operates like a bicycle hand brake to slow down or temporarily stop and easily locks into stationary position by pushing handle into down-position
- Swiveling, 6-inch caster wheels with soft-grip tires are non-marking and add stability and control for indoor and outdoor use
- Serrated-edged brakes provide firm hold
- Includes convenient zippered storage pouch on the bottom of the seat and spacious vinyl carry pouch below for transporting personal items with added privacy and security
- 14-inch seat width; 20-inch seat-to-floor height
- Not made with natural rubber latex
- HCPCS: E0143, E0156

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.
