

GE Healthcare

Critikon Cuffs

Total solutions for non-invasive
blood pressure

Quality cuffs

For every patient, every size, every need,
every department

You need blood pressure cuffs in many types and sizes – but only one brand: Critikon®, from GE Healthcare. As a pioneer in non-invasive blood pressure monitoring for more than 25 years, we also offer the industry's widest range of cuffs, so you can care for patients in virtually any clinical setting.

Sized for comfort and accuracy

A correctly sized cuff ensures accurate measurement and a pleasant experience for patients. Our color-coded system lets clinicians pick the right size at a glance.

- Five sizes for newborns.
- Six sizes for children and adults (infant to thigh).
- Long sizes from child to large adult.
- Index lines to verify size and ensure correct placement.
- Compliant with AAMI and AHA regulatory sizing standards.

Known for quality and innovation

Critikon products are backed by more than 25 years of excellence in blood pressure cuff manufacturing and ongoing research and development.

- Largest cuff manufacturer in the world.
- 100% of cuffs produced are leak tested.
- First in bladderless cuff technology.

Safe for patients

Clinical studies document that blood pressure cuffs can act as vectors for pathogens. Infection control specialists appreciate how single patient use or regular cleaning enhances infection control.

- Reusable cuffs with validated cleaning and disinfection instructions.
- Two varieties of disposable cuffs.
- Yellow cuffs for Isolation Care Area.
- Latex-free materials to prevent allergic reactions.

Designed for quick conversion

Our complete line of cuffs means you can use Critikon cuffs right out of the box on virtually any device that measures blood pressure with minimal disruption.

- Compatible with automated monitors including GE Healthcare (Critikon, DINAMAP,® Marquette, and Datex Ohmeda), Philips, Spacelabs, Colin, MDE, Datascope, Protocol, Welch Allyn, and others.
- Manual devices including wall manometers, rolling stand, mercury columns, and hand-held gauges.
- Save money by consolidating all your cuff purchases to one vendor, reducing P.O.'s and inventory, and creating a single point of contact for cuffs.
- Full offering of adapters and connectors for whole-house hospital conversion.

Standardize and save

By standardizing connecting systems, you create a universal connection to allow the same type of cuff connection to work on a variety of NIBP devices.

- Fewer purchase orders, invoices and SKU's.
- Dedicated implementation team.
- Lower carrying costs.

Best of all, your patients get quick attention, quality care and a comfortable hospital experience.

The ultimate in patient comfort

Soft-Cuf®

Our Soft-Cuf solutions are designed and priced to help you maintain high-quality care and patient satisfaction.

- Soft, absorbent material with rounded corners enhances patient comfort.
- Economical enough for pairing with single patient throughout hospital stay.
- Single patient use increases infection control at an affordable price.

Soft-Cuf® Assortment Packs: Two-Tube Screw Connectors

002695 1 Infant, 1 Child, 2 Sm. Adult, 2 Adult,

A single source for all your BP monitoring needs

You can look to GE Healthcare for all your blood-pressure monitoring equipment and supplies. With more than 300 products and accessories, we offer complete one-stop shopping.

The latest in monitors and equipment

We're your source for the latest in patient monitoring, including clinically-proven DINAMAP non-invasive blood pressure monitors. The DINAMAP PRO Series is a family that is flexible based on your changing needs. And we also offer a full range of blood pressure cuffs and connectors. The Critikon line includes complete accessories:

- Wall manometer assemblies
- Inflation bulbs and valves
- Hand-held and pocket aneroid gauges
- Wall baskets
- Stethoscopes
- Washing plugs
- Tubing
- Rolling stand

In short, everything you need for high efficiency and accuracy in non-invasive blood pressure monitoring.

Simplify your life. Choose Critikon.

Just one call and you can start saving money, eliminate wasted time, and simplify your daily activities with the Critikon non-invasive blood pressure solution. Contact your GE representative today.
