

## Patient Lift Slings

McKesson patient lift slings are designed to support a patient during lift and transfer procedures. Designed for strength, comfort, and compatibility with patient lifts—available in various options of size and style—McKesson's patient lift slings meet the transfer needs of most patients at home or in clinical settings when paired with any floor-style patient lift.

### Features and Benefits

- Designed with sling points for 4- or 6-cradle point compatibility
- Optional chains/straps not required
- Handle on outer side for assistance in positioning the patient in a wheelchair, commode, etc.
- Constructed with a high back section for additional head and neck support
- Padded under-thigh section for added comfort
- Available with commode-opening for added convenience
- Available in mesh- and solid-polyester materials, reinforced at all points of attachment to ensure maximum safety when supporting up to 600 lbs
- Machine-washable fabric resists deterioration from exposure to moisture and laundering in warm or cold water
- Not made with natural rubber latex
- HCPCS: E0621
