

Non-Safety Scalpels

McKesson Non-Safety Scalpels are disposable and consist of a stainless steel surgical blade pre-attached to a medical-grade plastic handle. Highly controlled sharpening and heat treatment processes ensure consistently sharp, durable and strong blades. Available in two types of ergonomic handle styles—classic grip or with non-slip bubble sensory grips— for precise control and maneuverability. Easy-to-read graduated measurement marks are on the back side of the handle in millimeters scale to help determine incision length. These non-safety scalpels are individually-packaged in a peel-open blister pack.

Features and Benefits

- Sharp cutting edge helps ensure clean, precise incisions
- Choice of two ergonomic handle styles— classic or sensory grip
- Each handle has a graduated 6-centimeter ruler to help determine incision length
- Size is clearly marked on blade and handle for easy identification
- Protective sheath covers blade to help prevent accidental cuts
- ISO 7153 specification stainless steel blade
- Easy-peel pouch packaging
- Not made with natural rubber latex

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.
