

Posey® Hipsters™

Posey Hipsters feature impact absorbing, soft foam pads over the critical fracture area to help minimize potential damage, including hip fractures that can occur from a fall.

Hipsters are available in innerwear and outerwear models. Innerwear garments are made of a polyester/cotton/Lycra® blend. Outerwear garments are made of a soft, preshrunk polyester/cotton blend and are available in a choice of navy blue or ash gray.

Hipsters are available in eight styles:

- Standard Unisex Brief easily fits over undergarments, or can be worn as underwear.
- Incontinent Brief features a snap front for easier application over adult diapers.
- Male Fly Brief easily fits over undergarments, or can be worn as underwear.
- EZ-On Brief features a crotchless design that allows patients to wear their own undergarments. The mesh material is water permeable, allowing the EZ-On Hipster to be worn during bathing.
- Women's Brief has the same look as regular day-to-day panties and is made of a soft cotton blend material.
- Men's Brief mirror men's regular briefs and are made of a soft gray cotton blend material.
- Sweatpants provide added comfort and warmth.
- Shorts provide added comfort.

Hipsters Sweatpants and Shorts feature high durability padding. All other models are available with original foam padding, or high durability padding designed to withstand laundering in large capacity machines at higher temperature hot washing cycles.

Application Instructions:

Standard, Male Fly, Incontinent Brief, Sweatpants and Shorts, Women's and Men's Briefs

With the Posey label in the Back, step into the garment and gently slide it up over the hips. Adjust to assure that the foam pads are properly aligned with and cover the hip joint.

EZ-On Model

1. Unfasten the hook and loop at the waist and thighs.
2. Wrap the garment around your waist. The label should be at the back and on the inside of the waistband.

OUTERWEAR

3. Fasten the hook and loop at the front of your waist. The waistband should be securely fastened to allow minimal shifting of the garment, but should not feel tight or restrictive.
4. Pull the left panel taut over the left hip and thigh. The pad should be positioned directly over the hip joint.
5. Secure the leg band around the lower thigh using the hook and loop attachment. The elastic band should be tight enough to prevent the pad from sliding out of place, without restricting circulation.
6. Repeat steps 4 and 5 on the right side.

Laundering Instructions

All Posey Hipsters can be washed according to CDC guidelines for healthcare facilities. Hipsters with high durability pads are designed to withstand laundering in large capacity machines at higher temperature hot 180°F (82°C) washing and high temperature drying cycles. Standard Hipsters will wash at 120°F (50°C) and dry at medium temperatures. The complete Guidelines for Laundry in Health Care facilities are available at: www.cdc.gov/od/ohs/biosfty/laundry.htm. The CDC states that “the risk of actual disease transmission from soiled linen is negligible” and “recent studies have shown that a satisfactory reduction of microbial contamination can be achieved at lower water temperatures of 72°-122°F (22°-50°C) when the cycling of the washer, the wash formula, and the amount of chlorine bleach are carefully monitored and controlled.” CDC offers the following advice for home care, “In the home, normal washing and drying cycles including ‘hot’ or ‘cold’ cycles are adequate to ensure patient safety. Manufacturers instructions for the machine and the detergent or wash additive should be followed closely.”¹ Lower wash/dry temperatures will prolong garment life.

- Adhere hook and loop straps before laundering to prevent lint build-up on hook during laundry cycle. If hook and loop does not adhere due to lint, clean hook material with a stiff brush.
- If EZ-On pads are removed, wipe clean with mild, liquid disinfectant before replacing in the pants.

⚠ WARNING

Due to the random possibility of falls, the Posey Company makes no guarantee, express or implied, that the user is protected from hip trauma. The skin under the pants should be assessed regularly and Hipsters should be changed and washed after each incontinent episode to prevent skin breakdown.

Posey Hipsters contain foam pads that are sealed in a pouch to protect it from water. If the pouch is cut or the seal is broken during laundering, moisture will enter the pouch and may result in waterlogged foam. Waterlogged foam encased in the pouch may promote the growth of bacteria.

- Test the foam and pouch integrity by squeezing the pad in one fist, forcing the air to one end, resulting in an air bubble.
- If you hear or feel liquid or air escaping, the pouch is damaged.
- If the pouch is damaged, discontinue use and discard.
