

## Patient Alarms and Fall Monitors

McKesson fall prevention monitors help monitor your residents' movements by providing audible and visual alerts. Simply plug the sensor pad, mat or seatbelt into the fall alarm and place under at-risk individuals. When they rise to get up, removing pressure from the connected sensor device, an alert is triggered and the alarm will visually and audibly notify caregivers that assistance is required.

McKesson alarm sensor pads offer caregivers an efficient way of knowing when a resident gets up from a bed or chair. These alarm sensor pads are totally sealed and impervious to fluids. When the alarm sensor pad is connected to a fall prevention bed alarm monitor, the pad will trigger the fall prevention alarm when weight is removed from the pressure pad itself. McKesson alarm sensor pads are compatible with most fall prevention monitors.

### Features and Benefits

#### Fall Prevention Monitors Corded

- Safety auto-reset function automatically silences and resets the alarm
- No unsafe off switch to prevent resident tampering
- Raised visual status light enabling caregiver to see alarm from a distance
- Battery notification
- Not made with natural rubber latex

#### Fall Prevention Monitors Pull-String

- A magnet-positioned cord that attaches via a garment clip to the resident's clothing
- Adjustable pull-string length
- Soft, shock-proof protective boot
- Impact resistant foam cover
- Not made with natural rubber latex

#### Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

#### Never Compromise on Care<sup>SM</sup>

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee. We have decades of experience in the market, and we offer you support and work to help ensure you have the products you need, when you need them—making it even easier for you to provide the best care for your patients.

The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources.
