

Irrigation Syringes 60cc

McKesson Irrigation Syringes 60cc feature a variety of tops and tips to aid in the irrigation of feeding tubes and medicine dispensation. The re-sealable flaps help prevent contamination during 24-hour use. We offer irrigation syringes with universal ENFit™ tips. With their locking features, ENFit™ tips minimize connectivity issues between feeding tubes, administration sets and flush feeding syringes. Their female connectors are compatible with male patient-access feeding tube ports. Intended for single patient use.

Features and Benefits

- Ideal for wound, catheter and feeding tube irrigation, supplemental hydration and manual liquid formula dispensation
- Bulb, flat and thumb ring tops for maximum control, less hand slippage and contamination prevention
- Catheter tips for piston and bulb irrigation syringes with small tube adapters and tip protectors
- ENFit™ tips to reduce risk of enteral tube feeding misconnections and improve patient safety
- Sterile and non-sterile 60cc syringes available with re-sealable IV pole bags and flaps
- Available with flat tops and tip protectors for ENFit™ tips
- Not made with natural rubber latex

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.
