

# Sharps Containers

Containers meet or exceed OSHA, NIOSH, CDC, and JCAHO Standards. Units are puncture resistant, exceeding current ASTM standards for wall thickness. All products shown here are free of latex and heavy-metals.

These sharps disposal containers are designed for use in patient rooms, physician offices, clinics, and other high traffic areas.

- » Lid design limits access to container contents
- » Horizontal drop allows maximum capacity of sharps
- » Translucent containers and lids allow viewing of fill level
- » Containers lock for final disposal
- » Accommodates syringes up to 60cc
- » Nestable to save money in shipping and storage
- » Built-in needle key for safe removal of needles when necessary.
