

PULLMAN-HOLT

Gloss Boss Renovation System For Tile & Grout

Introducing the Gloss Boss Renovation System for Tile and Grout; a specially designed brush tool with two unique rows of bristles working with a powerful cleaning solution to help you inexpensively handle any difficult tile and grout cleaning challenge, particularly those in hard-to-reach areas. Just squeeze a small amount of our cleaning solution onto the floor. Use the white bristles to scrub raised, textured or uneven tile, and, at the same time, cross over grout lines to loosen and remove dirt. The black bristles are extremely stiff and angled so they can reach deep into grout lines to aggressively remove stains and loosen embedded soil. Once you complete scrubbing the tile, simply attach the microfiber cleaning cloth to either brush to absorb any excess cleaning chemical and dry the tile.

Gloss Boss Tile and Grout Brush System includes dual bristle brush, swivel grout brush with tapered bristles, telescoping handle and one bottle of our advanced formula tile and grout cleaning solution formula.

BONUS BRUSH:

For cleaning corners, hard-to-reach areas and grout lines with tough, embedded soil. Brush head pivots to allow for maximum flexibility. Angled brush with irregular bristle length cleans evenly and deeply into grout valley.

Easy Four Step Process:

Pour cleaner onto floor

Use 'white' bristles to clean top of tile surface.

Use 'black' bristles to clean grout lines.

Wipe excess chemical with Microfiber cleaning towel.
